

Thanks to the People Who Made This Document Possible

Volunteers from our community contributed hundreds of hours to make this Community Profile a reality. Most efforts like this rely on paid professionals to prepare the Community Profile. We felt that, in the best GHA tradition, we had the talent to do it with volunteers. In addition, if we did it ourselves we would learn a lot more about the area than if a report was simply handed to us. We learned a lot – including next time to hire the professionals!
